Selection Estate Small Lot Series

Selection Estate Series 16 litre premium winemaking kit yields wines of exceptional flavour, aroma and complexity.

"We are pleased to introduce two new Small Lots varieties this May"

British Columbia Chardonnay

British Columbia is at the forefront of new, New-World Chardonnays, with a crisp, bright style that's perfectly balanced for food or casual sipping. Pale yellow, with fresh mineral and citrus flavours, notes of pear, white peach, green apple and fine acidity lead to a long, creamy finish with notes of honey. This wine can be left unoaked, for the cutting edge of the New World style of racy drinkability, or gently oaked to add notes of vanilla, smoke and butterscotch, along with a lengthened structure and sophisticated finish.

Selection Estate small lots will only be available starting May in small quantities for a limited time, so don't miss this rare opportunity to stock your cellar with this fabulous wine.

Meritage 3 Continents

Winexpert's 3 Continents Meritage combines Petit Verdot from Australia, Cabernet Sauvignon from California and Merlot from Chile to make a unique, globe-spanning vision of the quality a wine of the best varieties can truly possess. Aromas of bright black cherries and blackcurrant with soft notes of licorice, hints of cedar and herbs accented by a touch of mocha and vanilla complement rich flavours of chocolate dipped black fruit and notes of sweet oak. Structured, ripe tannins are followed by a long, fruit-driven finish.

It's all in the Glass

We have long been ex-pounders of making sure you get the best value from your wine by using a decanter. Many people have listened and told us that they too have discovered the difference this makes.

The Eisch Breathable Glass is the newest way to bring out the full flavour and aromas of your wine in much less time.

The staff at Winexpert decided to test the effectiveness of the technology. They found that it really worked on any new wines and particularly well on the Estate Series due to the fuller more intense flavours in these wines.

The Breathable Glass per-

manently keeps its properties. It can be treated just like any other high-quality crystal glass and does not require any special care.

A wine poured into this glass for just two to four minutes will show signs of aeration equivalent to the same wine that has been decanted and aerated for 1 to 2 hours.
